EDUCATIONAL SERVICE DISTRICT 112

*Serving children, schools and
communities for over 50 years.*

For more than 50 years, schools and communities have counted on Educational Service District 112 for essential services. Working collectively with our school and community partners, we bring equity and opportunity to the students of Southwest Washington and beyond.

MISSION

Who are we, and what is our purpose? The answers to those questions are defined in our key focus areas:

- We deliver programs that produce successful outcomes for students and teachers.
- We help save districts money so more time and resources can be directed to the classroom.
- We help build healthy communities that improve quality of life and contribute to the vitality of individuals and families.
- We serve the most vulnerable students who need extra supports to help them thrive.

We serve over 99,000 K-12 students in 30 public school districts, 34 state-approved private schools and two state schools. We also provide direct services to approximately 17,000 children across our region and the state each year.

We also serve in other corners of the state through the ESD Network. Special education services, school construction management, communications and technology training are a few examples of supports we provide across Washington.

We add value to education through our 300+ programs and services. We're dedicated to creating innovative, quality programs that respond to unique and sometimes challenging requests from large and small school districts.

Our focus assures support on two fronts:

1. Teaching and learning support to help strengthen instruction and improve student achievement
2. Business and administrative expertise to help support district management and operations functions

FINANCIAL RESOURCES

While ESD 112 is an essential part of state and regional education services, annual state funding for basic operational expenses is minimal. **Of ESD 112's \$103 million budget, only 1% is directly appropriated by the state.** The ESD uses that seed money to secure collaborative grants, manage fee-for-service partnerships and operate resourceful cooperatives and trusts. In fact, **for every \$1 invested in core funding, the ESD provides nearly \$100 in services!** That's a remarkable return on the state's investment.

Ocean Beach Blended Preschool April, 2023

Our bus drivers traveled approximately 1.5 million miles in 2023, transporting more than 820 students as far as Centralia, Oregon City, White Salmon, and Wahkiakum. Many of those students (approx. 65%) are experiencing homelessness or are in foster care. ESD 112 also provides bus transportation for the state schools for the Blind and Deaf.

LAND ACKNOWLEDGEMENT

ESD 112 acknowledges and honors the traditional lands of the Cowlitz and Chinook Tribes, Lower Columbia Peoples, Shoalwater Bay Tribe and the Confederated Tribes and Bands of the Yakama Nation, on which our school districts reside in what is now Southwest Washington. We pay respect to the elders and caretakers who have stewarded these lands throughout generations and that are still here today.
