

# Early Care & Education

EDUCATIONAL SERVICE DISTRICT 112

## Parents & Caregivers

Your story can make a difference! If you've had to navigate through the overwhelming world of our child care system, then you've got a story to tell!

Children rely on us to grow and thrive, but child care isn't working for families. We're coming together to fix the child care crisis now, because our children can't wait!

### "When Child Care Works, Families Work"

Child care services support working parents and caregivers, enabling them to focus on their careers or education, while ensuring peace of mind through safe, nurturing environments for their children.

# Seeking Champions!

We can help you share your story. There will be a variety of opportunities to empower you with all the info and talking points you need. You may also be eligible to receive incentives for your participation in this important work.
